

The K-Net team is able to provide a number of different levels of services to support your continued use and development of your web site. These include:

Supported Web Services

K-Net currently offers several tutorials for using software associated with website management and development with focus on Drupal. Please review webhosting services below:

- **Web Hosting for Commercial users:**

Services available are domain name registration, MySQL database, Installation of CMS software, Website Design, Helpdesk, training and Site Maintenance Agreements. There is a fee for registration and an annual fee for private domain names (.com .ca). Please visit <http://services.knet.ca> for details.

- **Web Hosting for First Nation Schools**

Free hosting including a MySQL database is available to First Nation Schools, Students, Teachers, Teacher Aids, Tutor Escort, Education Institutes, Education Support Staff, Education Students who live in Ontario as part of the INAC supported First Nations SchoolNet program. Helpdesk services are available for website development and maintenance. Domain names are available in the following format: <http://yourschool.firstnationschools.ca>, where “yourschool” is replaced with the name of your school.

- **Web Hosting for First Nations**

Free hosting including a MySQL database is available to First Nation Communities. For additional services please refer to commercial hosting. Domain names are available in the following format: <http://yourcommunity.firstnation.ca>, where “yourcommunity” is replaced with the name of your community.

- **Web Hosting for Personal Homepages**

Free hosting is available for personal use on <http://www.myknet.org>. Users must register for K-Net email at <http://mail.knet.ca> prior to activation of their personal homepage.

Please contact us for more information, helpdesk services or with any questions. Toll Free: 1-877-737-KNET (5638)
